

Your home never sounded better

Nowhere is out of bounds. Russound solutions include equipment for indoors and out, all of it designed for great sound that fits seamlessly in your home. While you're designing your house, imagine music everywhere, controlled at the touch of a button.

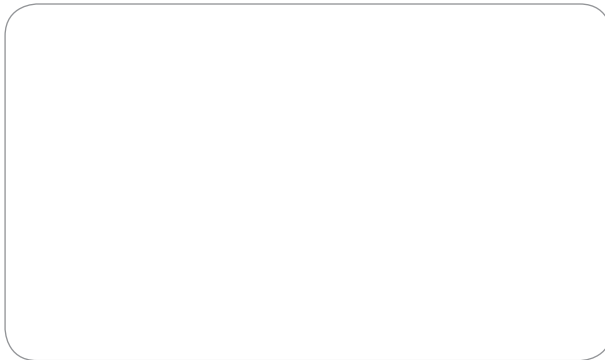

Respected Name. Proven Quality.

Innovation and reliability have been a part of Russound products since the company began in 1967. Today, Russound offers everything for enjoying multiroom audio in your home. From straightforward to sophisticated installations, Russound has a solution. All of them built to high standards and designed with the consideration of including them in home environments without intruding.

Designed for you.

Russound's worldwide network of skilled installers have the knowledge to guide you in choosing the right system and the experience to integrate it into your home.

Welcome to multiroom audio — the one home improvement that will bring you pleasure every day

A lifetime return on your investment

Russound products make it easy to build an entertainment system right into your home's architecture. You can have sound everywhere for what you might spend on a stereo system for just one room. It can be added to new construction or retrofit to existing homes.

Welcome home to Russound

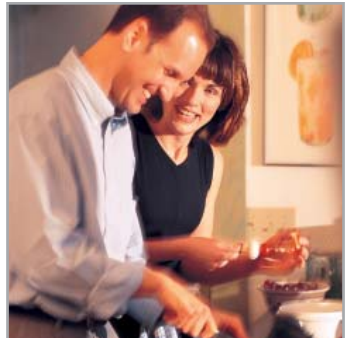

sunnier mornings

Start the day with music, news or sports

good times together

Cooking in the kitchen
